5 | PUJA ROOM AND PUJA TERRACE

Hindu-Gothic, Soulful, Experiential

WHAT'S YOUR FAVORITE THING ABOUT THE ROOM? It is organic and balanced, with characteristics that are opposing and symbiotic: The use of colors is commanding and serene, as are the lines of the furnishings and art. Positive energy will be in infinite flow. **HOW DOES THIS SPACE ILLUSTRATE YOUR SIGNATURE STYLE?** It is, in many ways, the perfect space for me. My vision for this room brings together themes from

the Hindu Festival of Colors with those of Brighton Pavilion. I strive for three things in design of any space: extraordinary use of color, experiential and soulful

design, and beauty. **WHAT IS THE ONE IDEA THAT YOU WANT VISITORS TO TAKE AWAY FROM YOUR SPACE?** The room resonates brilliance and energy, yet it is serene and meditative.

It creates a sense of yin and yang, a balance for the spirit. **WHAT MAKES YOUR ROOM "OF THE MOMENT?"** We live in a time when people are seeking a higher purpose and renewed hope. The puja—the soul of the home—is not a novel idea, but its discovery in our society is, and it is something we are all intrinsically seeking.
