R.L. GOINS launches

RAYMOND GOINS lifestyle collections

ATLANTA (March 4, 2006)- R.L. Goins announces the launch of Raymond Goins. Designers will see innovative and unexpected designs from furniture maverick Raymond Goins. Maintaining the quality and beauty he is known for, Raymond has created timeless pieces to comprise his new lifestyle collections.

"Ray Goins brings his artistic ability to design and antiques. He has incredible talent for creating new furniture that has a patina and proportion found in very special and fine antique pieces. Ray's work blends with our style of mixing the classics with the contemporary to create a timeless look," said Suzanne Kasler of Suzanne Kasler Designs in Atlanta. Raymond will launch several new designs by Spring 2006 that perfectly display his attention to detail, color, and style, as well as individuality. These new items will be sleek and chic, while versatile and fully functional. All pieces are personally designed by Raymond, with the manufacture, artistic details, and finishing done by hand in R.L. Goins Studio.

Clients will continue to be able to purchase Raymond's hand painted screens and panels through his new collections. "Raymond Goins' screens are beyond decorative. He has the ability to translate the client's needs with an amazing eye and technique. They speak to you. They are so very personal and individual...and so very beautiful," said Carolyn Malone of CM Interiors in Atlanta, GA.

Raymond Goins is available through Grizzel & Mann in Atlanta, and McRae & Company in San Francisco. For additional information, please contact Randi Roberts or Cristine Hodgson at (877)94-GOINS (678-281-0559 Atlanta) or visit www.rlgoins.com.
